

# ANDREW BROWNING

Vice President of Engineering & Project Manager

## EDUCATION

---

BS Civil Engineering – Virginia Tech

## REGISTRATIONS

---

PE Virginia #40705

PE North Carolina #42760

## ABOUT

---

Growing up in the family construction business inspired Andrew to become a Civil Engineer, now with over 20 years of experience. He is known for always being ON THE GO! Whether to meet with new clients, get hands on at the job site or develop new opportunities for the company.

He enjoys working with developers to turn their vision for a project into reality. He also enjoys interacting with the numerous people that are involved in getting a project completed...from conception to design and construction – Andrew likes to be involved in each phase!

With projects such as the Bacova development in Henrico, Reed Marsh & Rural Hill on the James in Goochland, the Village at Swift Creek in Chesterfield and Meadow Grove in Powhatan, Andrew has experience with many localities.

When Andrew isn't ON THE GO for work – he is ON THE GO for his kids! With 4 children – you will find Andrew most evenings in the spring and summer on the diamond coaching baseball or on the softball field with his girls. The fall brings football, basketball and gymnastics. When Andrew has free time, he likes to spend it outdoors – hunting, fishing & exploring!
