## ABOUT

---

With over 25 years of land development experience, Shannon spent about a decade as a geotechnical engineer before specializing in onsite wastewater engineering for the past 15 years. He holds certifications as a Licensed Professional Soil Scientist, Alternative Onsite Soil Evaluator, and Professional Engineer, bringing a wealth of knowledge to our team.

Since joining Youngblood, Tyler & Associates, P.C. in May 2022, Shannon has played a key role in establishing and leading our Environmental team. Shannon now serves as the Vice President of Environmental Engineering. Known for his friendly and outgoing personality, Shannon is highly regarded for his attention to detail and commitment to client success.

Shannon enjoys many hobbies outside of work, you can usually find him playing a couple rounds of golf, shopping around at antique and estate sales, or exploring local wineries and breweries with his wife, Melissa. The couple currently resides in Hanover County.
